FOR: VEHICLE AIR CONDITIONER WITH INVERTER

Commissioner of Patents and Trademarks

PETITION UNDER 37CFR1.181

SIR,

Please withdraw abandonment of the above application. The notice of allowance and issue fee due required payment of the issue fee of \$665.00 and the drawings already filed were found to be acceptable. The payment of the issue fee was received by the patent office on 4/19/04 as indicated by my return postcard. The abandonment action by the patent office appears to be in error. Please advance the application to issue and increase the term accordingly.

Respectfully submitted,

Alvin S. Blum
